

1:1 print ready drawing, 11 x 8.5

v1.3 | 01/08/2014

Tuner spacing is based off of Graphtech Black Tusq XL Schecter 7 Nut (PT-6748-00), under parameters:

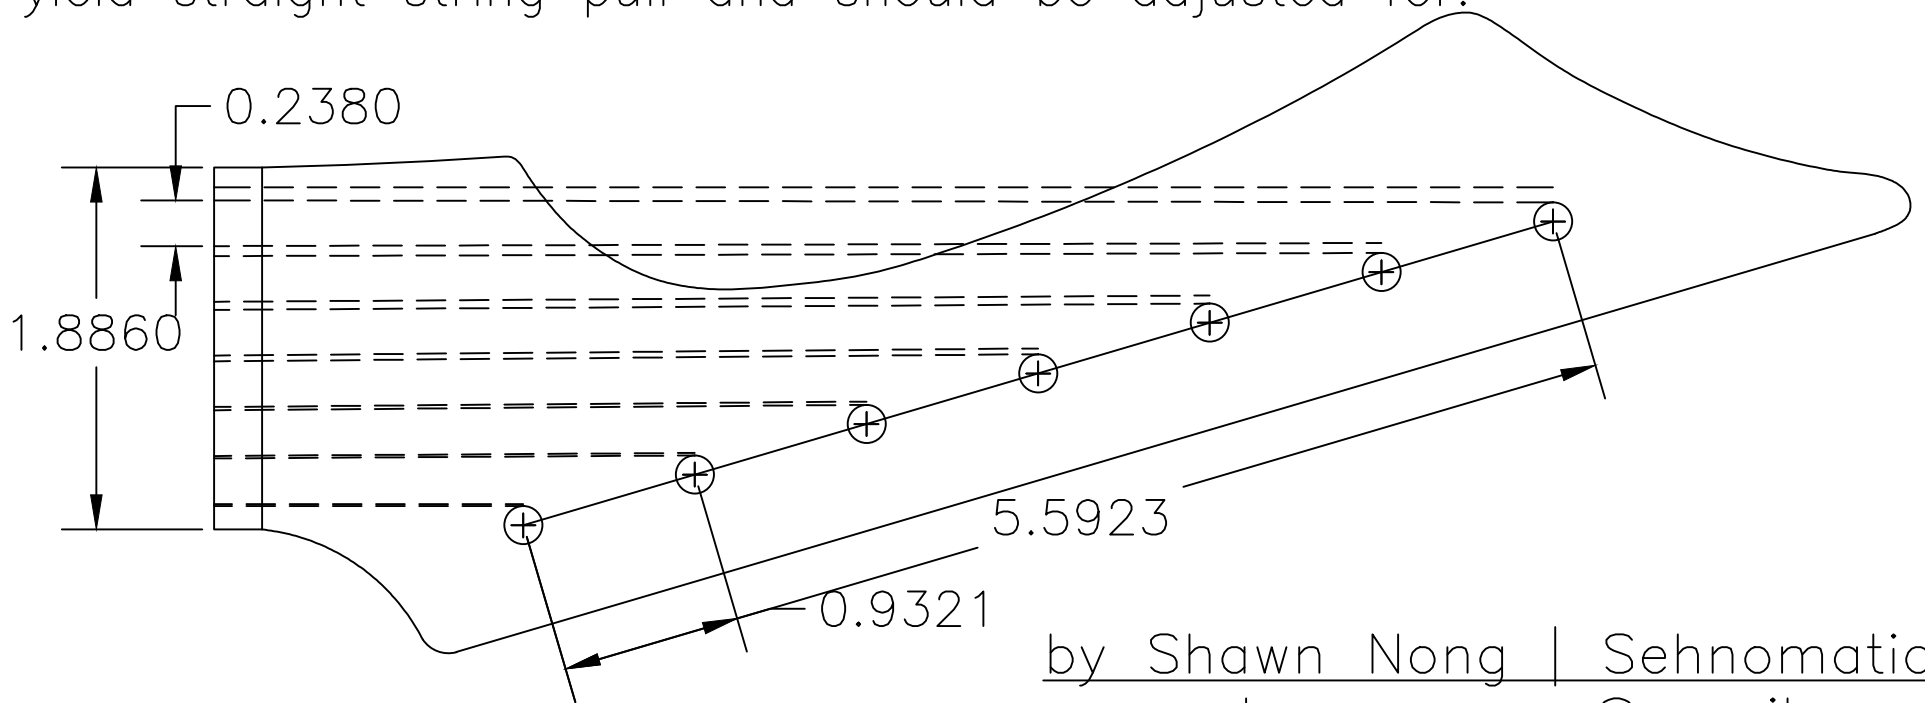

Edge to edge string spacing: 0.238" | 6.0452mm

Nut Width: 1.886" | 47.904mm

Tuner Shaft diameter: .213"(Hipshot) | 5.4mm

String Gauge: .010|.013|.017|.030|.042|.052|.068

Use of different nuts, string spacings, and/or string gauges may not yield straight string pull and should be adjusted for.
